

## About Milos Island

Due to the volcanic origin of its ground, Milos presents an impressive coastal morphology and diversity. With more than 75 small and big beaches of crystal, deep blue waters, multi-colored carved rocks and white-yellow coasts, it is certain that you will be impressed. Milos has some very interesting museums and archeological sights which you can visit during your stay. An island which was inhabited since prehistoric times, the island of "Venus de Milo".
